BIOGRAPHY

Rachel Dawson is a UK-based singer-songwriter whose heartfelt storytelling, warm personality, and distinctive country-pop sound are quickly earning her attention within the independent music scene. Growing up surrounded by music, Rachel developed a passion for songwriting at an early age and has spent recent years honing her craft as both a performer and songwriter.

Drawing inspiration from a blend of Country, Pop, Folk and Americana influences, Rachel's music combines honest lyrics, memorable melodies and an authentic emotional connection that resonates with audiences. Whether performing intimate acoustic sets as a solo performer or taking to larger festival stages with her full band, she brings a natural warmth, engaging stage presence and genuine love for live music to every performance.

With a voice that effortlessly balances strength and vulnerability, Rachel's songs explore themes of love, resilience, self-discovery and everyday life, reflecting experiences that feel both deeply personal and universally relatable. Away from music, Rachel loves to surf — a personal passion reflected in her beach photographs.
